

A detailed mural of a tropical interior. In the foreground, a light-colored sofa with several pillows sits on a wooden coffee table with books. To the right, a stack of books holds a large white vase with blue floral patterns, overflowing with pink flowers. The background features two tall, ornate columns and a wall covered in lush green tropical plants and a distant landscape. The overall style is classical and elegant.

Balade à Beaulieu couleur

Provence collection

Gentle melancholy of MEDITERRANEAN LANDSCAPES

Balade à Beaulieu, in the *Provence collection*, exudes the silent beauty and gentle melancholy of Mediterranean landscapes. It is a suspended world, made of ancient villas, dark pines, motionless palm trees. The sea is there, at the bottom, like a distant dream, a memory. In two finishes – couleur et brun patiné – the decor is transformed, to whisper a timeless *Provence*, in slow hours, where time seems to have given way to eternity.

Wallpaper mural *Balade à Beaulieu*, couleur finish (ref. 441). strips presented: number 1 to 7 of height 250 cm. Available to measure. 120 € / m². Made in France.

In the distance, the mountains erase time. In two finishes – couleur et sépia – where the decor is transformed into a garden with faded colors, more discreet on your walls.
